"Green Dreams and World Wonders"

Professor Woudhuysen, as a future forecasting expert, will discuss issues related to environment and visionary cities. His recent book *Why is construction so backward?* has been described as "Shock therapy for construction policymakers" in *The Architect's Journal*. He will also discuss issues related to global warming and the future of the world's energy supplies in relation his forthcoming publication (May 2008) entitled *Energize: why the future of energy is too important to leave to politicians and rock stars*.

James Woudhuysen is Professor of Forecasting and Innovation at De Montfort University, Leicester, UK.
